WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

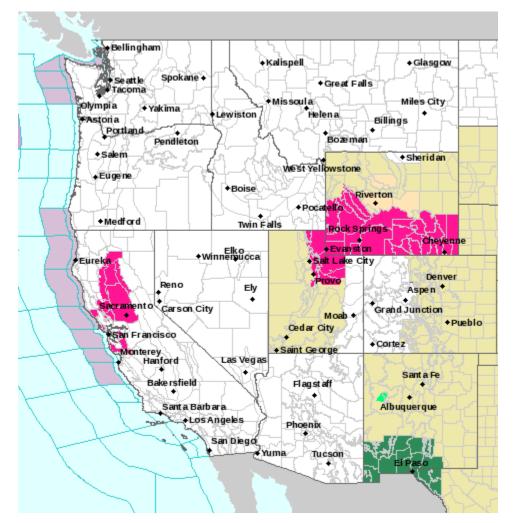

- High Risk today for Gusty N-Ne/Offshore Winds Sacramento Valley and Surrounding Foothills, Southern Mid Coast, and Santa Cruz/Diablo.
- Weak and broad high pressure ridge overhead through Sunday. After a weak trough passes Monday high pressure will return.
- N-NE/Offshore wind pattern will develop through midday Friday throughout the Sacramento Valley and surrounding foothills and on the mid and upper slopes throughout the Bay Area, including Napa, Sonoma, and Marin Counties to the north.
- Peak gusts will be 25-35 mph this morning, with isolated wind-prone spots seeing slightly higher gusts. Winds late today through early Friday will be significantly lighter, but still N-NE/Offshore.
- Poor relative humidity (RH) recovery, to only 15-35%, will be common tonight, and a few pockets of dry air on mid and upper slopes remaining Friday night. Minimum afternoon RH 8-18%, lowest in breezy areas.
- No precipitation is expected and temperatures will be above normal during the 7-day period.

SOUTHERN CALIFORNIA

- Warmer and less windy weather will return today and Friday before temperatures cool down slightly over the weekend.
- Highs will reach the mid and upper 90s in the valleys by Friday before cooler, onshore flow returns this weekend.
- RH will gradually increase today into the weekend and most areas will see minimums above 15%.
- A weak offshore wind event the first one of the season will be possible around the middle of next week.
